

# SPRITE PROJECT

## DESIGN FOR THE WEB

Using 1 image file only – create an archive page spanning 3 years with each month as link. The links should be enhanced with an image rollover and show a clear change of visual on rollover. Each year should show a different styling for its monthly links.

The layout of the page is up to you (though you can use your latest 3 column layout for this if you like). The main aim of this project is to allow you to experiment with the sprite rollover technique and explore the use of a single image file for multiple uses.

### TECHNICAL REQUIREMENTS

- single page layout showing 3 years of monthly archives (each month to be set up as link)
- distinctive style per year each year to show a different visual for link rollovers
- single image file used for rollover effect on all 3 year's individual links

### SUBMISSION

- start date 10/10/08
- deadline 15/10/08
