

BOX PROJECT

DESIGN FOR THE WEB

PROJECT OUTLINE

To practise your newly discovered box model technique – create a colourful web page on the subject of boxes :)

Find some images and text to use about anything relating to boxes, this could be gift boxes, cardboard boxes, chocolate boxes – anything you like. Plan out a rough idea of the look of your page and proceed to produce the page in HTML with CSS styling.

CONCEPT

The concept for project is to create a demo page for the box model which will show some distinct styling and positioning via CSS. Your code needs to validate and your page ready to be viewed online.

TECHNICAL REQUIREMENTS

- pages 1 single HTML page
- colours minimum: 3
maximum: 7
- images use of 1 image required
- page elements header, horizontal menu, 6 paragraphs of text

SUBMISSION

=> submit your complete project folder

- start date 29/9/09
- deadline 2/10/09
